# Centralized Web

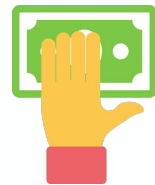

# Centralized Web (CWeb)

1. They make the technical limitations of the CWeb more comfortable.

2. They are intermediaries taking profit shares.

3. They use closed source to lock their customers in.

Is **zoom** listening?

**twitch**  gets more  than the streamer?

Does  read my texts?

Is  reading my mails?

# This is not the End

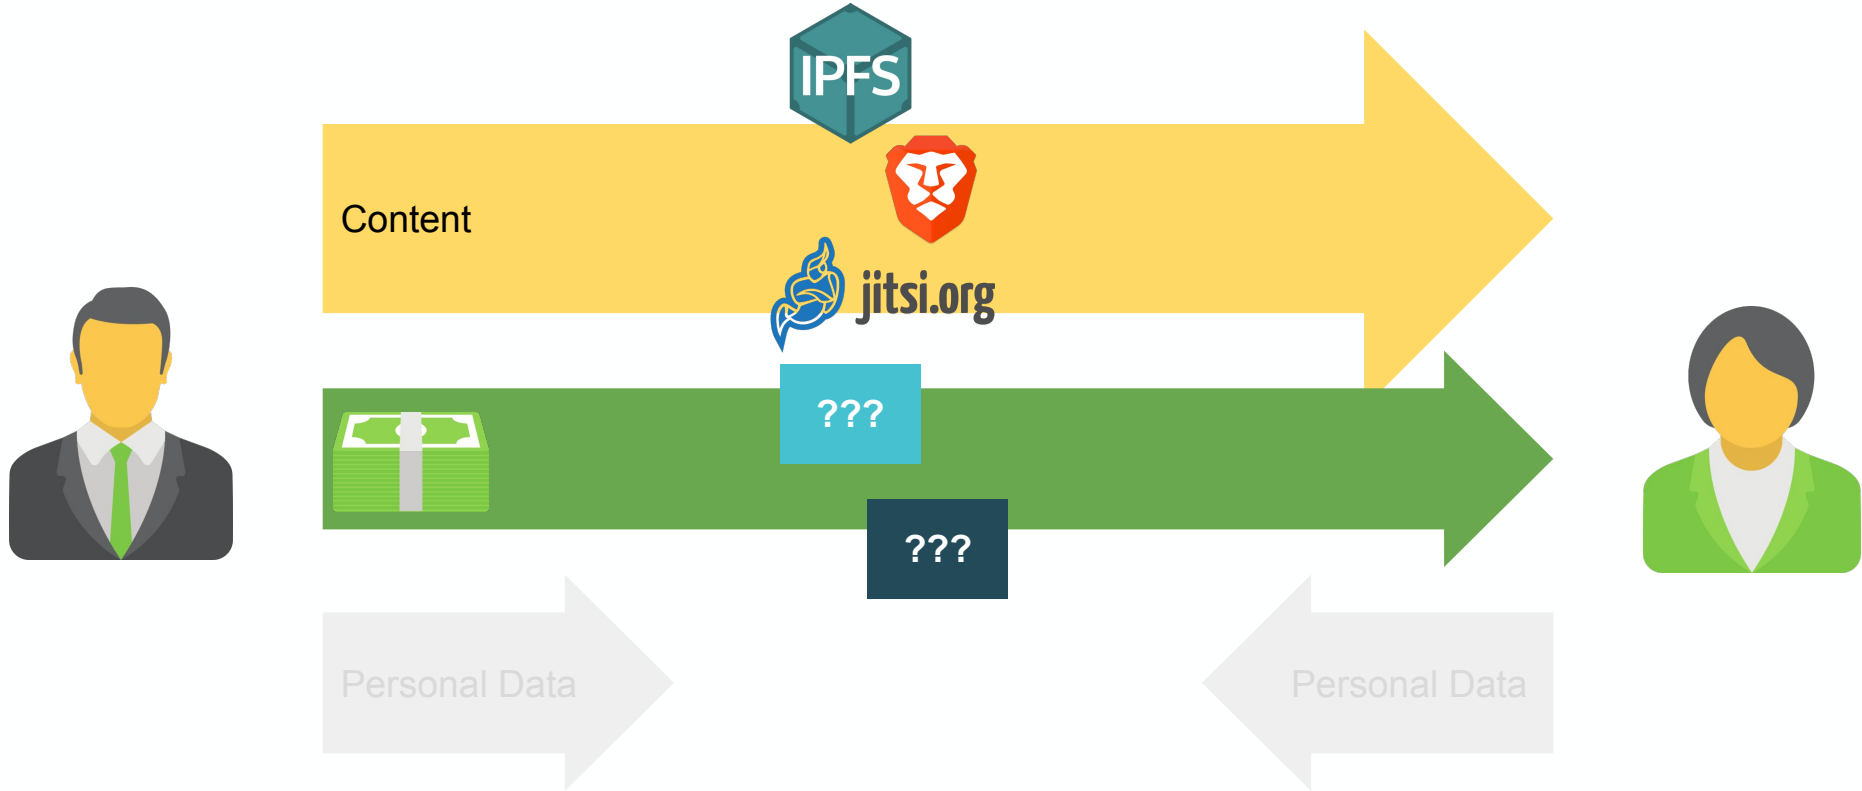

# This is the Beginning

# Decentralized Revolution 去中心化的

# Decentralized Web

# Decentralized Web (DWeb)

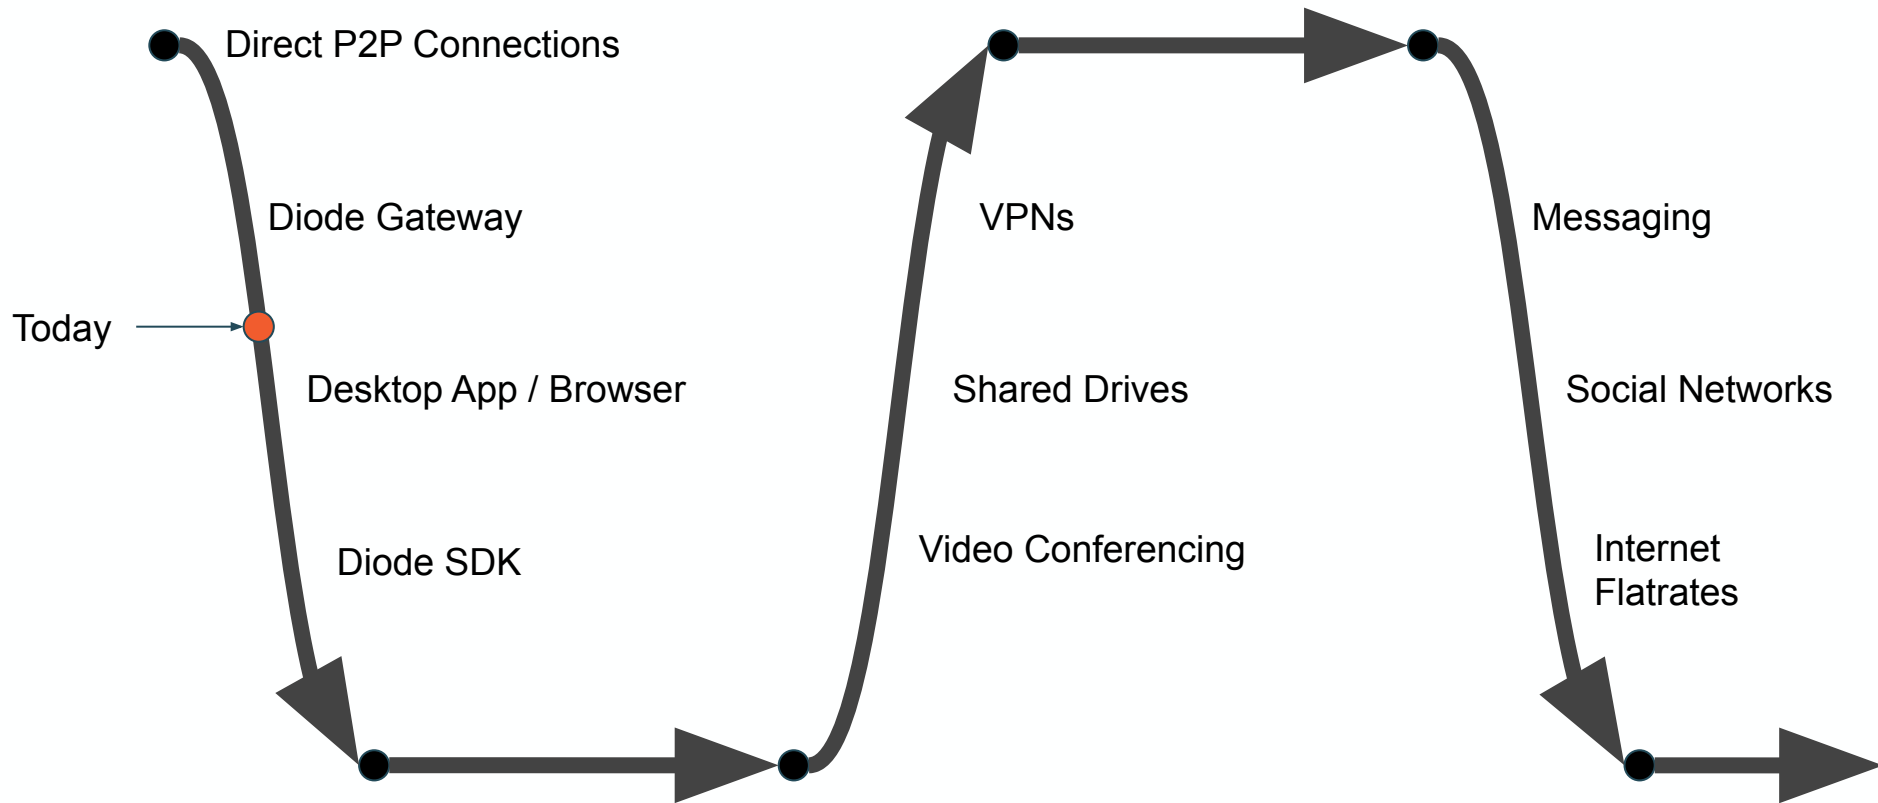

1. Based Public/Private Key Crypto
2. Built-In Direct Transfer of Value
3. Running Transparent DApps

# Vision

Our vision is to see a thriving world wide network operating on fully decentralized infrastructure.
